RENEWAL OF SUPPORT AND UPGRADE AGREEMENT

NEWS FROM 2012

Powersim Studio has been transformed to support a 64-bits operating systems and to increase performance. Also it has been given a user interface face-lift.

Yes, Powersim Studio 9 is soon available!

INTRODUCING STUDIO 9 PREMIUM

The Studio 9 Premium is a suitable edition for customers who are working with very large models.

- **New maximum value for number of elements of one variable is 10 Million**
- **Variable Value Memory is up to 16 GB**

You may cross upgrade from all our modeling tools to the new Studio 9 Premium.

NEW FEATURES IN STUDIO 9

The following new features are available to customers with a valid Support and Upgrade Agreement and is valid for all Studio 9 editions:

- **Now available in both 32 bit and 64 bit versions**
- **Variable Value Memory is up to 2 GB**
- **Increased simulation performance in the 32 bit version**
- **Import through Datasets to Start-up variables**
- **Movable legend in Time Graphs and Charts**
- **Presentation Sidekicks allowing for HTML content**

The new major release will soon be available to download from our web pages. You simply need to decide if you want to work with the 32 or 64 bit version from now on.
